PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience in building full-stack web applications using Java, Spring Boot, React.js, MySQL, REST APIs, and Spring Data JPA. Strong understanding of Object-Oriented Programming, Data Structures, backend architecture, API development, database operations, and frontend integration. Developed and deployed StayNest, a property management system focused on room, customer, rent, electricity bill, and payment management.

EDUCATION

Dr. Babasaheb Ambedkar Technological University Raigad, Maharashtra <i>B.Tech in Computer Engineering CGPA: 6.87</i>	08/2020 – 08/2024 Aurangabad, Maharashtra
Maharashtra State Board of Secondary and Higher Secondary Education, Pune <i>Higher Secondary Certificate Examination Percentage: 65.38%</i>	2019 – 2020 Aurangabad, Maharashtra
Maharashtra State Board of Secondary and Higher Secondary Education, Pune <i>Secondary School Certificate Examination Percentage: 83.20%</i>	2017 – 2018 Aurangabad, Maharashtra

SKILLS

Programming Languages: Java, JavaScript, SQL, Python

Java & Core Concepts: Core Java, Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Generics, Multithreading, Java 8 Features, Streams API, Lambda Expressions

Backend Development: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs, Maven, Dependency Injection, Validation, CRUD Operations

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, React Router, Axios, Responsive Web Design

Database: MySQL, SQL Queries, Joins, Subqueries, Database Design, Relational Databases, Primary & Foreign Keys

Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Hashing, Searching, Sorting, Recursion, Time & Space Complexity

Web & API Concepts: REST Architecture, HTTP Methods, HTTP Status Codes, JSON, Request/Response Handling, Client-Server Architecture, API Integration

Software Development Concepts: MVC Architecture, Layered Architecture, SDLC, Debugging, Error Handling, Authentication & Authorization, Version Control

Tools & Technologies: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Eclipse, MySQL Workbench, Maven

PROJECTS

StayNest – Property Management System [Live Demo](#)

- Developed a fully responsive and user-friendly room rental management system with React.js frontend, Spring Boot REST APIs, and MySQL database integration.
- Room & Customer Management – Built modules to add, update, assign, and manage rooms and tenants with a clean and responsive user interface.
- Rent & Electricity Management – Implemented monthly rent generation, electricity bill calculation, payment tracking, and payment history management.
- Secure Admin Dashboard – Designed an admin dashboard for managing rooms, customers, rent records, and occupancy status with role-based access.
- Payment Management – Built payment processing and payment history modules to track paid, partial, and pending rent amounts.
- Spring Boot Integration – Developed RESTful APIs using Spring Boot and Spring Data JPA to perform CRUD operations and integrate seamlessly with the React frontend.
- **Tech Stack:** Java, Spring Boot, React.js, JavaScript, HTML5, CSS3, MySQL, REST APIs, Spring Data JPA (Hibernate), Git, GitHub, VS Code.

Bulk Email Automation API

- Developed a scalable Bulk Email Automation API using Java and Spring Boot to send personalized emails to multiple recipients by reading data from Excel files.
- Excel Data Processing – Integrated Apache POI to read recipient information directly from Excel files and process multiple email records efficiently.
- REST API Integration – Developed Spring Boot REST endpoints to handle bulk email requests, process recipient data, and trigger automated email delivery.
- Email Personalization & Attachments – Implemented dynamic email content for individual recipients with support for custom subject lines, message templates, and PDF attachments.
- SMTP Email Integration – Integrated Gmail SMTP using JavaMail API to automate email delivery and support batch email processing.
- **Tech Stack:** Java, Spring Boot, Apache POI, JavaMail API, REST APIs, Maven, Gmail SMTP.

RELEVANT COURSEWORK & CONCEPTS

Computer Science Fundamentals: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Software Engineering: Software Development Life Cycle (SDLC), MVC Architecture, Layered Architecture, Debugging, Testing, Version Control

Backend Concepts: RESTful Services, HTTP Request/Response Lifecycle, Dependency Injection, CRUD Operations, Exception Handling, Data Validation

Database Concepts: Relational Database Design, Primary Keys, Foreign Keys, Joins, Subqueries, Normalization, Data Integrity

CERTIFICATES

Java Programming Language Certification :

<https://certificate.codingninjas.com/view/ec1e5bf03199e2f1>

Data Structure in Java Programming Certification :

<https://certificate.codingninjas.com/view/8474332ca13df137>

Front End | Full Stack Web Development Certification :

<https://certificate.codingninjas.com/view/212c03218a6af50a>

STRENGTHS

Problem Solving: Analytical Thinking, Logical Reasoning, Debugging, Root Cause Analysis, Attention to Detail

Learning & Adaptability: Quick Learning, Self-Learning, Adaptability, Continuous Learning, Openness to New Technologies

Team & Communication: Team Collaboration, Communication, Active Listening, Knowledge Sharing, Interpersonal Skills

Professional Skills: Time Management, Task Prioritization, Responsibility, Consistency, Self-Motivation, Decision Making

AWARDS & ACHIEVEMENTS

- **Treasure Hunt Winner – Dr. Babasaheb Ambedkar Technological University Raigad, Maharashtra | August 2023:** Secured first position in a competitive Treasure Hunt event, demonstrating problem-solving, logical thinking, teamwork, and decision-making skills.
- **Badminton Championship Runner-up – Dr. Babasaheb Ambedkar Technological University Raigad, Maharashtra | May 2023:** Secured runner-up position in a competitive badminton championship, demonstrating discipline, consistency, competitive spirit, and sportsmanship.
